

Subject Index to Volume 16

A

- Acetoacetate, malformations, embryo, E72
- Acidosis, lactic, type A hypoxic, E271
- Adenosine, phosphocreatine absence and, luteal cells, E391
- Adenosine monophosphate, cyclic gonadotropin secretion and pituitary gland, female, E290
- pituitary gland, male, E296
- N*,2'-*O*-dibutyl-, calcium levels and, osteoblastlike cells, E45
- PTH and, phosphate transport, kidney, E221
- purine synthesis and, liver, E684
- Adenosine triphosphatase, myofibrillar, diabetes and, skeletal muscle, E395
- Adenosine triphosphate, phosphocreatine absence and, luteal cells, E391
- Adenylate cyclase
 - aging effects, liver, E277
 - modulation of activity, during sucrose feeding, food deprivation, and cold exposure, E629
- Adipocytes
 - insulin action, physical training and, E489
 - insulin passage, capillary endothelium, E475
 - lactate production from glucose, food restriction effects, E336
 - lipolysis and, adaptation in exercise, E383
- Adipose tissue
 - brown: *see* Brown fat
 - capillary endothelium, restricted passage of insulin across, E475
 - de novo lipogenesis, carbohydrate intake effects, E664
 - insulin action, physical training and, E489
 - intercellular water space, microdialysis method, E228
 - white, insulin and cold exposure effects, E179
- Adrenalectomy
 - catecholamine and cortisol responses, experimental cardiac arrest, E283
 - compensatory lung growth and, E343
 - high-fat diet and, brown fat metabolism with, E149
- Adrenal hormones
 - control of compensatory growth by, lung, E343
 - postpneumectomy, lung growth and, E6
- Adrenergic control, lipolysis, adaptation in exercise, E383
- Aging
 - adenylate cyclase and, hepatic, E277
 - ionophore A23187 and, LH hyposecretion from pituitary cells and, E233
- Alanine
 - glucose infusion and, urea production, E543
 - infusion, sample site selection for tracer studies, E173
- Aldosterone, receptors selective for, parotid, colon, and pituitary, E467
- Amidophosphoribosyltransferase, glucagon infusion effects, liver, E684

- Amines, dietary, distribution in platelets, E312
 - Amino acids
 - dietary, decreased myofibrillar proteolysis after refeeding, E52
 - infusion, leucine metabolism and, E428
 - transport, diabetes and, brain, E575
 - 6-Aminonicotinamide, malformations, embryo, E72
 - Anemia, glucose dependence in, resting, E461
 - Anesthesia, pentobarbital, alterations in glucose kinetics, E657
 - Anoxia, peripheral nerve response, E349
 - Antilipolysis, glucose transport and, diabetes and obesity, E300
 - ATP: *see* Adenosine triphosphate
 - ATPase: *see* Adenosine triphosphatase
 - Atropine, thermic effects of food and, E481
 - Autonomic nervous system, thermogenesis and, E481
 - Autoradiography
 - quantitative
 - 1,25-dihydroxyvitaminD₃, islet development, E99
 - glucose utilization, brain, E453
 - renin distribution, exogenously administered, kidney, E621
 - Autoregulation, thyroid, impact on structure and function, E165
 - Awake state
 - glucose homeostasis, somatostatin effects, fasting, E435
 - glucose utilization, cerebral cortex, insulin effects (goat), E418
- ## B
- Bicarbonate, infusion, sample site selection for tracer studies, E173
 - Blockade, β -adrenergic, thermogenesis induced by, obesity, E65
 - Blood, sampling site, radioiodide and per technetate kinetics and, model, E691
 - Blood-brain barrier, regional amino acid transport, diabetes and, E575
 - Blood flow
 - cerebral, endogenous opioids and, E565
 - glycogenolysis and, nervous control, liver, E238
 - nerve, exsanguination and, E349
 - Blood vessel, drug action, spare receptors and, E114
 - Body, composition, high-fat diet and adrenalectomy effects, E149
 - Bone, resorption, hydrogen stimulation of, E90
 - Brain
 - 2-deoxyglucose metabolites, dephosphorylation, model, E453
 - experimental injury, endogenous opioids and, E565
 - LHRH degradation, E317
 - regional amino acid transport, diabetes and, E575
 - Brown fat
 - enzymes and uncoupling protein in, response to cold, T₃ generation and, E255
 - glucose uptake, insulin and cold exposure effects, E179

- sure effects, E179
- metabolism, high-fat diet and adrenalectomy effects, E149
- modulation of receptors and adenylate cyclase activity, during sucrose feeding, food deprivation, and cold exposure, E629
- sympathetic activity in, lactation and, E515

C

- Calcium
 - cytosolic free, GRF effects, anterior pituitary cells, E591
 - 1,25-dihydroxyvitamin D₃, metabolic clearance rate, E246
 - intracellular, parathyroid hormone effects, osteoblastlike cells, E45
 - IP₃-dependent release, endotoxemia and sepsis, permeabilized hepatocytes, E130
 - LH release in presence of, A23187 and aging effects, pituitary cells, E233
 - release, cell-mediated bone resorption, E90
 - transport, sarcolemmal, diabetic cardiomyopathy, E202
 - vitamin D₃ effects and, cardiovascular function, E675
- Calcium ions
 - blood, regulation of 1 α -hydroxylase by, renal, E503
 - cycling, skeletal muscle contraction in hypothyroidism, E214
- Calorimetry
 - indirect
 - de novo lipogenesis, adipose tissue, E664
 - epinephrine stimulation, E322
 - hyperglycemia and, E376
 - parasympathetic nervous system, E481
- cAMP: *see* Adenosine monophosphate, cyclic
- Capillary endothelium, adipose tissue, insulin passage across, E475
- Carbohydrates
 - intake, de novo lipogenesis and, adipose tissue, E664
 - metabolism, liver, computer model, E360
 - mRNA-S14, hepatic lipogenesis and, neonatal, E536
 - oxidation, hyperglycemia stimulation of, E376
- Carbonic anhydrase, activity, osteoclasts, PTH effects (chick), E670
- Cardiac arrest, catecholamine and cortisol response, E283
- Cardiomyopathy, diabetic, sarcolemmal calcium transport in, E202
- Cardiopulmonary resuscitation, experimental cardiac arrest, catecholamine and cortisol responses, E283
- Catecholamines
 - free and sulfate-conjugated, distribution in platelets, E312
 - glycogenolysis and, liver, aging effects, E277
 - iron deficiency, glucose dependence in, resting, E461

- Catecholamines (*continued*)
 lipolysis and, adaptation in exercise, E383
 plasma, response to cardiac arrest, E283
 Cerebral cortex, glucose utilization, insulin effects, awake state (goat), E418
 α -Chloroisocaproic acid, metabolism, skeletal muscle in endurance training, E648
 Cholesterol, transport, plasma lipoproteins, E1
 Circadian rhythms: *see* Rhythms
 Clearance, metabolic, 1,25-dihydroxyvitamin D₃, E246
 Clenbuterol, muscle growth induced by, insulin and, E370
 Cold
 diet and, cafeteria feeding, E264
 enzymes and uncoupling protein response in, brown fat, E255
 exposure
 insulin effects on glucose uptake and, E179
 lactation and, brown fat, E515
 modulation of receptors and adenylate cyclase activity, E629
 Collagen, lung growth, postpneumectomy, E6
 Colon, type I receptors, aldosterone selective, E467
 Compartmental analysis, stereological, thyroid autoregulation and, E165
 Corticosterone, ³H-labeled, type I receptors, parotid, colon, and pituitary, E467
 Cortisol, serum, response to cardiac arrest, E283
 Cycling, cross-bridge, skeletal muscle contraction in hypothyroidism, E214
 Cycloheximide
 cAMP role
 gonadotropin secretion, pituitary, male, E296
 gonadotropin secretion, pituitary, female, E290

D

- Dantrolene, calcium levels and, osteoblast-like cells, E45
 Deconvolution, insulin absorption, subcutaneous, model, E584
 Deoxyglucose, uptake, insulin and cold exposure effects, E179
 2-Deoxyglucose
 metabolites of, dephosphorylation, brain, model, E453
 uptake and phosphorylation, endotoxin-treated skeletal muscle, E33
 2-Deoxy-D-glucose 6-phosphate, insulin effects, cerebral cortex (goat), E418
 Development: *see also* Growth
 glucose metabolism during, suckling period, E142
 islet, 1,25-dihydroxyvitamin D₃, E99
 Diabetes
 altered contractile proteins in, skeletal muscle, E395
 glucose kinetics, during Gram-negative infection, E123
 muscle growth, clenbuterol-induced, E370
 obesity and, glucose transport and antilipolysis, E300
 regional amino acid transport, brain, E575

- streptozotocin-induced, cardiomyopathy, sarcolemmal calcium transport in, E202
 translational inhibitor, muscle, E31
 Dialysis, intercellular water space, human tissue, E228
 Diaphragm, endotoxin-treated, 2-deoxyglucose uptake, E33
 Diet: *see* Feeding
 1,25-Dihydroxyvitamin D₃: *see* Vitamin D₃
 Diltiazem, calcium levels and, osteoblast-like cells, E45

E

- EGF: *see* Epidermal growth factor
 Elastin, lung growth, postpneumectomy, E6
 Endocytosis, lipid transport, blood plasma, E1
 Endoplasmic reticulum, IP₃-dependent release, endotoxemia and sepsis, E130
 Endothelial cells, microvessel and large vessel, IGF stimulation of proteoglycans, E21
 Endotoxemia, IP₃-dependent release, permeabilized hepatocytes, E130
 Endotoxin
 skeletal muscle treated with, 2-deoxyglucose uptake, E33
 suppressed lipoprotein lipase activity, triacylglycerol kinetics, E59
 Energy
 cafeteria feeding, diet-induced thermogenesis, E264
 expenditure
 β -adrenergic blockade, obese women, E65
 carbohydrate intake and, adipose tissue, E664
 glucose-based total parenteral nutrition and, E135
 hyperglycemia and, E376
 retention, high-fat diet and adrenalectomy effects, E149
 Epidermal growth factor, growth-promoting activity of, neonates, E251
 Epinephrine
 glucose kinetics, pentobarbital anesthesia and, E657
 physiological increments, metabolic rate and, E322
 thermogenesis and, postprandial, E521
 Euglycemic-hyperinsulinemic clamp technique, insulin resistance, suckling period, E142
 Exercise
 active postexercise recovery, muscle glycogen repletion in, E305
 catecholamine distribution and, platelets, E312
 endurance training, leucine metabolism in muscle and, E648
 glucose transport and muscle, E331
 skeletal muscle, E12
 lipolysis during, adrenergic control of, E383
 training, insulin action in muscle, liver, and adipose tissue, E489
 Exsanguination, metabolic and vascular response to, peripheral nerve, E349

F

- Fasting
 alteration studies, insulin action on obese women, E193

- dietary regulation, myofibrillar proteolysis, E52
 glucose homeostasis
 somatostatin effects, awake state, E435
 somatostatin effects on nonesterified fatty acid levels, E443
 lactate production from glucose and, adipocytes, E336
 serum lactogenic hormone concentration and, pregnancy, E40
 Fat cells: *see* Adipocytes
 Fatty acids
 free
 endotoxin and, E59
 fasting effects, pregnancy, E40
 hyperglycemia and, E376
 postprandial thermogenesis and, E521
 nonesterified, somatostatin effects, glucose homeostasis during fasting, E443
 Fatty acid synthase, liver content, weaning, E536

- Feeding
 cafeteria, diet-induced thermogenesis, E264
 dietary regulation, myofibrillar proteolysis, E52
 food deprivation, modulation of receptors and adenylate cyclase activity, E629
 food restriction, lactate production from glucose and, adipocytes, E336
 heat production and, hormonal control, E521
 high-fat diet, adrenalectomy and, brown fat metabolism with, E149
 intravenous, thermogenesis and, obese women, E65
 parenteral, glucose as caloric source in, E158
 thermic effect, parasympathetic nervous system and, E481
 Fetus: *see also* Lactation; Placenta; Pregnancy
 maternal communication
 circadian rhythms, E401
 prenatal-sensitive period (hamster), E701
 tissue, glucose utilization, hyperglycemia and hyperinsulinemia effects, E616
 Flufenamate
 cAMP role
 gonadotropin secretion, pituitary, female, E290
 gonadotropin secretion, pituitary, male, E296
 Follicle-stimulating hormone
 cAMP role
 gonadotropin secretion, pituitary, female, E290
 gonadotropin secretion, pituitary, male, E296
 Formate, ¹⁴C-labeled, purine synthesis, glucagon effects on, liver, E684
 Forskolin, calcium levels and, osteoblast-like cells, E45

G

- GH: *see* Growth hormone
 Glucagon
 infusion, purine synthesis and, liver, E684
 insulin deficiency and, protein catabolism, E208
 insulin extraction and, liver, E603

Glucocorticosteroids, compensatory lung growth and, E343

Gluconeogenesis
 pentobarbital anesthesia and, E657
 somatostatin effects, fasting and, E435

Glucose
 caloric source, parenteral feeding, E158
 carbohydrate oxidation and, E376
 dependence, resting and iron deficiency, E461
 dialysis: human tissue, E228
 fasting effects, pregnancy, E40
 homeostasis
 during fasting, nonesterified fatty acid effects, E443
 somatostatin effects, fasted awake state, E435
 infusion
 intestinal, insulin extraction and, liver, E603
 urea production and, E543
 kinetics
 alterations in pentobarbital anesthesia, E657
 diabetes, during Gram-negative infection, E123
 lactate production from, food restriction effects, adipocytes, E336
 metabolism
 endotoxin-treated skeletal muscle, E33
 hydroxybutyrate-induced malformations and, embryo, E72
 oxidation, insulin passage and, capillary endothelium, adipose tissue, E475
 thermogenesis and, postprandial, E521
 total parenteral nutrition based on, energy expenditure after, E135
 transport
 exercise-induced increase, muscle, E331
 fasting-mediated alteration studies, obese women, E193
 lipolysis and, diabetes and obesity, E300
 uptake
 insulin effects, skeletal muscle, E12
 insulin effects after cold exposure, E179
 physical training and, muscle, liver, and adipose tissue, E489
 utilization
 hyperinsulinemia and hyperglycemia effects, tissue, fetus, E616
 insulin effects, cerebral cortex, awake state (goat), E418
 local, cerebral, E453
 suckling period, E142

Glucose-6-phosphatase, utilization, cerebral, E453

Glutamine, glucose infusion and, urea production, E543

Glycerol
 insulin action on, obese women, E193
 lipolysis and, adaptation in exercise, E383

α -Glycerophosphate dehydrogenase, brown fat function, T₃ and, E255

Glycine, ¹⁴C-labeled, purine synthesis, glucagon effects on, liver, E684

Glycogen
 muscle
 exercise effects, E331
 repletion, active postexercise recovery, E305
 synthesis, liver, computer model, E360
 transport, skeletal muscle, E12
 turnover, liver, computer model, E360

Glycogenolysis, blood flow and, nervous control, liver, E238

Glycosaminoglycans, IGF stimulation, endothelial cells, E21

Gonadotropin
 secretion
 cAMP effects, pituitary gland, female, E290
 cAMP effects, pituitary gland, male, E296

Gram-negative infection, glucose kinetics during, diabetes, E123

Granulosa cells, ovarian, LHRH degradation, E317

GRF: *see* Growth hormone-releasing hormone

Growth: *see also* Development
 lung
 compensatory, adrenalectomy and, E6
 compensatory, control by adrenal hormones, E343
 muscle, clenbuterol-induced, insulin effects, E370
 stimulation, EGF and, neonatal stage, E251

Growth hormone
 fasting effects, pregnancy, E40
 release, GH-releasing factor and somatostatin effects, E508
 secretion, inhibitory effects of TRH, E354

Growth hormone-releasing factor
 cytosolic free calcium concentration and, anterior pituitary cells, E591
 periodic interactions with somatostatin, GH release and, E508

Growth hormone-releasing hormone, inhibitory effects, growth hormone secretion, E354

Gut: *see* Intestine

H

Heart
 brown fat metabolism, high-fat diet and adrenalectomy effects, E149
 sympathetic activity, lactation and, E515

Heart rate
 β -adrenergic blockade, obese women, E65
 glucose kinetics, diabetes, during Gram-negative infection, E123

Heat, production, skeletal muscle contraction, hypothyroidism, E214

Hepatic nerves, glycogenolysis and blood flow controlled by, arterially and portally perfused liver, E238

Hepatocytes
 adenylate cyclase, aging effects, E277
 permeabilized, IP₃-dependent release, endotoxemia and sepsis, E130

Histone, translational inhibitor, diabetes, muscle, E81

Hormonal control, postprandial thermogenesis, E521

Hormones: *see also* specific hormone
 adenine nucleotide content and, liver mitochondria, newborn, E530
 spare receptors, drug action and, E114

Hydrochloric acid, bone resorption, cell-mediated, E90

Hydrocortisone, compensatory lung growth and, E343

Hydrocortisone acetate, lung growth, post-pneumectomy, E6

Hydrogen, stimulation, cell-mediated bone resorption, E90

DL- β -Hydroxybutyrate, malformations induced by, mechanism for, embryo, E72

Hydroxyproline, bone resorption, cell-mediated, E90

25-Hydroxyvitamin D₃: *see* Vitamin D₃

Hyperglucagonemia, insulin deficiency, protein catabolism and, E208

Hyperglycemia
 carbohydrate oxidation and, E376
 hyperinsulinemia and, glucose utilization and, tissue, fetus, E616

Hyperinsulinemia, hyperglycemia and, glucose utilization and, tissue, fetus, E616

Hypertrophy, vitamin D₃ effects and, cardiovascular function, E675

Hypothalamus, growth hormone secretion, TRH inhibition of, E354

Hypothermia, glucose kinetics, pentobarbital anesthesia and, E657

Hypothyroidism, heat production and, skeletal muscle contraction, E214

I

IGF: *see* Insulinlike growth factor

Immunocytochemistry, target cells, islet development, E99

Indomethacin, bone resorption, cell-mediated, E90

Inositol triphosphate, calcium release, endotoxemia and sepsis, permeabilized hepatocytes, E130

Insulin
 action
 carbohydrate oxidation and, E376
 fasting-mediated alteration studies, obese women, E193
 physical training and, muscle, liver, and adipose tissue, E489
 clenbuterol and, muscle growth, E370
 cold exposure and, glucose uptake, E179
 deficiency, hyperglucagonemia during, protein catabolism and, E208
 extraction, intestinal factor effects, liver, E603
 glucose utilization and
 cerebral cortex, awake state (goat), E418
 tissue, fetus, E616
 kinetics, diabetes, during Gram-negative infection, E123
 lactate production and, fasting effects, adipocytes, E336
 metabolism, endotoxin-treated skeletal muscle, E33
 myofibrillar proteolysis, dietary regulation of, E52
 passage, restricted, capillary endothelium, adipose tissue, E475
 proteoglycans and, endothelial cells, E21
 receptors: *see* Receptors
 resistance: *see* Resistance
 sensitivity, modified protocols for, model, E595
 subcutaneous, rate of appearance, model, E584
 thermogenesis and, postprandial, E521
 translational inhibitor, diabetes, muscle, E81

Insulinlike growth factor, stimulation of proteoglycans, endothelial cells, E21

Intestine
 factors, effect on insulin extraction, liver, E603

- Intestine (*continued*)
 lactate production, type A hypoxic lactic acidosis, E271
- Iodide, transport, thyroid, autoregulation and, E165
- Iodine, metabolism, thyroid, autoregulation, E165
- Ionophore A23187, luteinizing hormone hyposecretion and, pituitary cells, aging and, E233
- Iron, deficiency, glucose dependence and, E461
- Ischemia
 cerebral, endogenous opioids and, E565
 peripheral nerve response, E349
- Isoleucine, infusion, leucine metabolism and, E428
- Isotopes
 radioactive
 leucine and α -ketoisocaproate, amino acid infusion effects, E428
 models for kinetic data, E551
 stable, leucine metabolism, newborn; E608
- Isozymes, myosin, diabetes and, skeletal muscle, E395
- K**
- α -Ketoisocaproate
 infusion, sample site selection for tracer studies, E173
 metabolism, skeletal muscle during contractions, E636
- Ketone body
 kinetics, stable isotope tracer studies, E551
 turnover, tracer study, E496
- Kidney
 phosphate transport, regulation by PTH, E221
 renin distribution, exogenously administered, E621
- Kidney cells, phosphate transport, regulation by PTH, E221
- Kidney tubules, proximal, renin distribution, E621
- Kupffer cell, renin distribution, exogenously administered, kidney, E621
- L**
- Lactate
 concentration, pentobarbital anesthesia and, E657
 infusion, sample site selection for tracer studies, E173
 kinetics
 diabetes, during Gram-negative infection, E123
 resting and iron deficiency, E461
 muscle, active postexercise recovery, E305
 production
 from glucose, food restriction effects, adipocytes, E336
 measurement of, E472
 muscle, E271
- Lactation: *see also* Fetus; Placenta;
 Pregnancy
 sympathetic activity and, brown fat, E515
- Lactogenic hormone, fasting effects, pregnancy, E40
- Leucine
 infusion, sample site selection for tracer studies, E173
 metabolism
 amino acid infusion effects, E428
 endurance training, skeletal muscle, E648
 hyperglucagonemia during insulin deficiency and, E208
 newborn, E608
 skeletal muscle during contractions, E636
- LHRH: *see* Luteinizing hormone-releasing hormone
- LH: *see* Luteinizing hormone
- Lipids
 glucose and, caloric source in parenteral feeding, E158
 transport function, lipoproteins, blood plasma, E1
- Lipogenesis
 de novo, carbohydrate intake effects, adipose tissue, E664
 insulin action on, fasting mediated studies in obese women, E193
 S14 role in, liver, weaning, E536
 total parenteral nutrition, glucose-based, E135
- Lipogenic enzymes
 liver content, weaning, E536
 optimal response, brown fat, T₃ effects, E255
- Lipolysis
 adrenergic control of, adaptation in exercise, E383
 insulin action on, fasting mediated studies in obese women, E193
- Lipopolysaccharides, endotoxin and, lipoprotein lipase activity, E59
- Lipoprotein lipase, suppressed activity, endotoxin, triacylglycerol kinetics, E59
- Lipoproteins
 transport by lipids, blood plasma, E1
 very low-density, triacylglycerol kinetics in sepsis, E59
- Liver
 adenylate cyclase complex, aging and, E277
 arterially and portally perfused, nervous control of glycogenolysis and blood flow, E238
 calcium homeostasis, endotoxemia and, E130
 fatty, glucose as caloric source in, E158
 glycogen turnover, computer model, E360
 insulin action, physical training and, E489
 insulin extraction, intestinal factor effects, E603
 lactate extraction, type A hypoxic lactic acidosis, E271
 LHRH degradation, E317
 mitochondria, adenine nucleotide content, newborn, E530
 mRNA-S14 content, weaning, E536
 purine synthesis, glucagon infusion effects, E684
- Lung
 growth
 adrenalectomized postpneumonec-tomy, E6
 compensatory, control by adrenal hormones, E343
 LHRH degradation, E317
- Luteal cells, phosphocreatine absence in, E391
- Luteinizing hormone
 cAMP role
 gonadotropin secretion, pituitary, female, E290
 gonadotropin secretion, pituitary, male, E296
 hyposecretion, ionophore A23187 effects, pituitary cells, aging and, E233
 phosphocreatine absence and, luteal cells, E391
- Luteinizing hormone-releasing hormone, degradation, brain and other organs, E317
- Lysosomes
 muscle, clenbuterol-induced growth, E370
 renin distribution, exogenously administered, kidney, E621
- M**
- Magnesium, depletion, metabolism of vitamin D and, E106
- Malic enzymes, liver content, weaning, E536
- Manganese, calcium levels and, osteoblast-like cells, E45
- Melatonin, prenatal-sensitive period, maternal-fetal communication of day length (hamster), E701
- Metabolic rate
 epinephrine stimulation of, E322
 parasympathetic nervous system and, E481
- 3-O-Methylglucose, transport, skeletal muscle, E12
- 3-Methylhistidine, myofibrillar proteolysis, dietary regulation of, E52
- Microdialysis, tissue, intercellular water space, E228
- Microscopy, light and electron, renin distribution, kidney, E621
- Mitochondria
 adenine nucleotide content, liver, newborn, E530
 vitamin D metabolism, magnesium depletion and, E106
- Models
 computer, glycogen turnover, liver, E360
 2-deoxyglucose metabolites, dephosphorylation, brain, E453
 insulin sensitivity, modified protocols for, E595
 kinetic data, stable isotope tracer studies, E551
 mathematical, spare receptors and drug actions, E114
 sampling site effects, blood radioiodide and pertechnetate kinetics, E691
 single-pool and two-accessible pools, ketone body kinetics, children, E496
 subcutaneous insulin, rate of appearance, E584
- Multiparameter bioassay, evaluation of parathyroid hormone antagonist, E187
- Muscle
 deficiency, glucose dependence, resting, E461
 glucose transport, after exercise, E331
 glycogen repletion, active postexercise recovery, E305
 growth, clenbuterol-induced, E370
 insulin action, physical training and, E489
 translational inhibitor from, diabetes, E81
- Muscle, heart, vitamin D₃ involvement in function, E675

- Muscle, skeletal**
 contractile proteins in, diabetes and, E395
 contraction
 heat production during, hypothyroidism and, E214
 leucine metabolism during, E636
 endotoxin-treated, 2-deoxyglucose uptake, E33
 endurance training, leucine metabolism during, E648
 glucose transport, insulin and contraction effects, E12
 myofibrillar proteolysis, dietary regulation, E52
- Muscle, smooth, contraction, spare receptors, drug action, E114**
- Muscle fiber types**
 glucose transport, insulin and contraction effects, E12
 leucine metabolism, E636
 leucine metabolism, endurance training effects, E648
- Myocardium, cation transport in, diabetic cardiomyopathy, E202**
- Myometrium, desensitization, ritodrine infusion and, E410**
- N**
- Neonate: see also Newborn**
 epidermal growth factor, growth-promoting activity of, E251
- Newborn: see also Neonate**
 leucine metabolism, E608
 liver mitochondria, adenine nucleotide content, E530
- Nickel, protein, pertussis toxin and, pituitary tumor cells, E28**
- Norepinephrine**
 thermogenesis and, postprandial, E521
 turnover
 high-fat diet and adrenalectomy effects, E149
 lactation and, brown fat, E515
- Nucleotides, adenine, mitochondrial content, liver, newborn, E530**
- Nutrients, intravenous, thermogenesis induced by, obesity, E65**
- Nutrition, parenteral, glucose-based, energy expenditure after, E135**
- O**
- Obesity**
 diabetes and, glucose transport and lipolysis, E300
 thermogenesis, β -adrenergic blockade and intravenous nutrient-induced, E65
 women, fasting-mediated studies on insulin action, E193
- Opioids, endogenous, traumatic brain injury and, E565**
- Osteoblastlike cells, calcium elevation, parathyroid hormone and, E45**
- Osteoclasts**
 bone resorption, hydrogen-stimulated, E90
 carbonic anhydrase activity of, PTH effects (chick), E670
- Oxidation**
 leucine
 newborn, E608
 skeletal muscle during contractions, E636

- skeletal muscle in endurance training, E648
 β -Oxidation, liver content, weaning, E536
- Oxygen**
 consumption, maximal, insulin action and, E489
 peripheral nerve, exsanguination and, E349
 transport, anemia, resting and, E461
- Oxygenation, adenine nucleotide content and, liver mitochondria, newborn, E530**

P

- Pancreas, clamp, glucose homeostasis, fasted awake state, E435**
- Pancreatic islets, immature target cells in, 1,25-dihydroxyvitamin D₃ in, E99**
- Parasympathetic nervous system, thermic effects of food, E481**
- Parathyroid hormone**
 carbonic anhydrase activity and, osteoclasts (chick), E670
 intracellular calcium and, osteoblastlike cells, E45
 25(OH)D₃-1 α -hydroxylase response to, blood calcium effects, renal, E503
 phosphate transport and, kidney, E221
 parathyroid hormone antagonist, evaluation, multiparameter bioassay, E187
- Parotid gland, type I receptors, aldosterone selective, E467**
- Pentobarbital, anesthesia, alterations in glucose kinetics, E657**
- Peptides**
 chain initiation, diabetes, muscle, E81
 parathyroid hormone antagonist, multiparameter bioassay, E187
- Peripheral nerve, metabolic and vascular response, exsanguination, E349**
- Permeability, muscle, glucose, exercise effects, E331**
- Pertechnetate, blood, kinetics, sampling site effects, model, E691**
- Pertussis toxin, potassium conductance and, pituitary tumor cells, E28**
- pH**
 bone resorption, cell-mediated, E90
 intracellular, liver, type A hypoxic lactic acidosis, E271
- Phorbol esters, PTH and, phosphate transport, kidney, E221**
- Phosphate**
 transport, regulation by PTH, kidney, E221
 vitamin D₃ effects and, cardiovascular function, E675
- Phosphocreatine, detectable, absence, luteal cells, E391**
- 5-Phosphoribosyl-1-pyrophosphate, purine synthesis and, liver, E684**
- Phosphorus, 1,25-dihydroxyvitamin D₃, metabolic clearance rate, E246**
- Pineal gland, prenatal-sensitive period, maternal-fetal communication of day length (hamster), E701**
- Pituitary cells**
 anterior
 cytosolic free calcium concentration, GRF effects, E591
 LHRH degradation, E317
 LH hyposecretion from, ionophore A23187 and aging effects, E233
 tumor, potassium conduction in, pertussis toxin effects, E28

- Pituitary gland**
 anterior, pulsatile GH release, E508
 gonadotropin secretion
 cAMP effects, female, E290
 cAMP effects, male, E296
 type I receptors, aldosterone selective, E467
- Placenta: see also Fetus; Lactation; Pregnancy**
 lactogen concentration, fasting effects, pregnancy, E40
- Plasma**
 amino acids: see Amino acids
 lipoproteins, lipid transport function of, E1
- Plasma membrane, liver, age-associated changes, E277**
- Platelets, catecholamine distribution in, E312**
- Pneumectomy**
 adrenalectomized, lung properties after, E6
 compensatory lung growth and, E343
- Potassium, conductance, somatostatin-induced, pertussis toxin effects, pituitary tumor cells, E28**
- Pregnancy: see also Fetus; Lactation; Placenta**
 ritodrine infusion, myometrial desensitization after, E410
 serum lactogenic hormone concentration, fasting effects, E40
- Prolactin, fasting effects, pregnancy, E40**
- Propranolol**
 thermic effects of food and, E481
 thermogenesis and, obese women, E65
- Prostaglandin E₂, GRF effects, anterior pituitary cells, E591**
- Prostaglandins, bone resorption, cell-mediated, E90**
- Protein**
 catabolism, hyperglucagonemia during insulin deficiency and, E208
 contractile, diabetes and, skeletal muscle, E395
 dietary, decreased myofibrillar proteolysis after refeeding, E52
 turnover, leucine, newborn, E608
- Protein kinase c, PTH and, phosphate transport, kidney, E221**
- Proteoglycans, endothelial, IGF stimulation of, E21**
- Proteolysis, myofibrillar, decrease after refeeding, E52**
- PTH: see Parathyroid hormone**
- Puberty, prenatal-sensitive period, maternal-fetal communication of day length (hamster), E701**
- Purine, synthesis, glucagon infusion effects, liver, E684**
- Pyrimidine, synthesis, de novo, malformation, embryo, E72**

R

- Radioiodide, blood, kinetics, sampling site effects, model, E691**
- Receptors**
 α -adrenergic, ritodrine infusion, myometrial desensitization after, E410
 β -adrenergic, liver, aging effects, E277
 aldosterone-selective, parotid, colon, and pituitary, E467
 insulin
 fasting-mediated alteration studies, obese women, E193

Receptors (*continued*)

- glucose transport and antilipolysis, diabetes, E300
- lipolysis in exercise, E383
- modulation of, during sucrose feeding, food deprivation, and cold exposure, E829
- spare, drug action and, E114
- triiodothyronine, brown fat function and, E255
- vitamin D, pancreatic islets, E99
- Renin, renal, exogenously administered, distribution of, E621
- Resistance
 - insulin
 - glucose transport and antilipolysis, diabetes, E300
 - suckling period, E142
- Respiratory exchange, dietary effects, thermogenesis, E264
- Respiratory quotient, β -adrenergic blockade, obese women, E65
- Rhythms
 - circadian, maternal-fetal communication, E401
 - GH release, GH-releasing factor and somatostatin effects, E508
- Ribonucleic acid, messenger S-14, liver, during weaning, E536
- Ritodrine, infusion, myometrial desensitization after, E410
- RNA: *see* Ribonucleic acid

S

- Sarcolemma, calcium transport, diabetic cardiomyopathy, E202
- Secretin, insulin extraction and, liver, E603
- Sepsis
 - glucose kinetics, diabetes and, E123
 - IP_3 -dependent release, permeabilized hepatocytes, E130
 - triacylglycerol kinetics, suppressed lipoprotein lipase kinetics, E59
- Sex differences, obese women, insulin action on lipolysis and lipogenesis, E193
- Sodium-calcium exchange, sarcolemmal, diabetic cardiomyopathy, E202
- Somatostatin
 - glucose homeostasis and, fasted awake state, E435
 - GRF effects, anterior pituitary cells, E591
 - nonesterified fatty acid levels, glucose homeostasis during fasting, E443

- periodic interactions with GH-releasing factor, GH release and, E508
- potassium conductance induced by, pertussis toxin inhibition, pituitary tumor cells, E28
- TRH effects and, growth hormone secretion, E354
- Spectrometry, mass, glucose infusion and urea production, E543
- Starvation: *see* Fasting
- Suckling, insulin resistance during, E142
- Sucrose, feeding, modulation of receptors and adenylate cyclase activity, E629
- Suprachiasmatic nuclei, circadian rhythms, maternal-fetal communications, E401
- Sympathetic activity, lactation and, brown fat, E515

T

- Tannic acid, renin distribution, exogenously administered, kidney, E621
- Temperature, body
 - brown fat metabolism, high-fat diet and adrenalectomy effects, E149
 - glucose kinetics, pentobarbital anesthesia and, E657
- Thermogenesis
 - β -adrenergic blockade, energy expenditure and, E65
 - autonomic nervous system and, E481
 - diet-induced, cafeteria feeding and, E264
 - epinephrine stimulation, metabolic rate, E322
 - lactation and, brown fat, E515
 - postprandial, hormonal control of, E521
 - shivering, insulin and cold exposure effects, E179
 - T_3 and, brown fat function, E255
 - total parenteral nutrition, glucose-based, E135
- Threonine, infusion, leucine metabolism and, E428
- Thyroid, structure and function, autoregulation effects, E165
- Thyroparathyroidectomy, 1α -hydroxylase response, blood calcium regulation of, renal, E503
- Thyrotropin-releasing hormone, inhibitory effects of, growth hormone secretion, E354
- Thyroxine, thermogenesis and, postprandial, E521
- Tracer studies
 - ketone body kinetics, E496
 - pulmonary distribution, blood radioiodide and pertechnetate kinetics, E691

- sample site selection for, circulatory approach, E173
- stable isotope, models of kinetic data, E551
- Training: *see* Exercise
- TRH: *see* Thyrotropin-releasing hormone
- Triacylglycerol, kinetics,
 - endotoxin-suppressed lipoprotein lipase activity, E59
- Triglycerides
 - transport, plasma lipoproteins, E1
 - unidirectional, carbohydrate intake and, adipose tissue, E664
- Triiodothyronine
 - brown fat function, optimal, E255
 - liver content, weaning, E536
 - thermogenesis and, postprandial, E521
- T_3 : *see* Triiodothyronine

U

- UMR 106 cells, calcium in, parathyroid hormone effects, E45
- Urea, production, glucose infusion effects, E543

V

- Verapamil, parathyroid hormone effects on calcium and, osteoblastlike cells, E45
- Vitamin D, parathyroid hormone antagonist and, multiparameter bioassay, E187
- Vitamin D₃
 - cardiovascular function and, E675
 - 1,25-dihydroxy-
 - cardiovascular function and, E675
 - metabolic clearance rate, estimation of, E246
 - regulation by blood calcium, renal, E503
 - target cells, immature pancreatic islets, E399
 - 25-hydroxy-
 - metabolism, magnesium depletion effects, E106
 - response to PTH, blood calcium effects, renal, E503

W

- Water, intercellular space, microdialysis method, E228
- Weaning
 - insulin resistance during, E142
 - premature, S14 role in hepatic lipogenesis, E536

EDITORIAL REVIEW

Lipid transport function of lipoproteins in blood plasma <i>R. J. Havel</i>	E1
Static mechanical properties of lungs from adrenalectomized pneumonectomized rats <i>R. A. Bennett, J. L. Addison, and D. E. Rannels</i>	E6
Kinetics of glucose transport in rat muscle: effects of insulin and contractions <i>T. Ploug, H. Galbo, J. Vinten, M. Jørgensen, and E. A. Richter</i>	E12
Stimulation of proteoglycans by IGF I and II in microvessel and large vessel endothelial cells <i>R. S. Bar, B. L. Dake, and S. Stueck</i>	E21
Pertussis toxin inhibits somatostatin-induced K^+ conductance in human pituitary tumor cells <i>N. Yamashita, I. Kojima, N. Shibuya, and E. Ogata</i>	E28
Increased uptake and phosphorylation of 2-deoxyglucose by skeletal muscles in endotoxin-treated rats <i>K. Mészáros, G. J. Bagby, C. H. Lang, and J. J. Spitzer</i>	E33
Effects of fasting on serum lactogenic hormone concentrations during mid- and late pregnancy in mice <i>P. J. Fielder, L. Ogren, D. Edwards, and F. Talamantes</i>	E40
Parathyroid hormone acutely elevates intracellular calcium in osteoblastlike cells <i>I. R. Reid, R. Civitelli, L. R. Halstead, L. V. Avioli, and K. A. Hruska</i>	E45
Decreased myofibrillar proteolysis after refeeding requires dietary protein or amino acids <i>M. N. Goodman and M. Del Pilar Gomez</i>	E52
Triacylglycerol kinetics in endotoxic rats with suppressed lipoprotein lipase activity <i>G. J. Bagby, C. B. Corll, and R. R. Martinez</i>	E59
β -Adrenergic blockade and intravenous nutrient-induced thermogenesis in lean and obese women <i>O. Vernet, C.-A. Nacht, L. Christin, Y. Schutz, E. Danforth, Jr., and E. Jequier</i>	E65
A potential mechanism of DL- β -hydroxybutyrate-induced malformations in mouse embryos <i>E. S. Hunter III, T. W. Sadler, and R. E. Wynn</i>	E72
A translational inhibitor from muscles of diabetic rats: identification as histone H1 <i>N. E. O'Leary, W. B. Mehard, I. R. Cheema, K. Moore, and M. G. Buse</i>	E81
H^+ stimulation of cell-mediated bone resorption in tissue culture <i>P. Goldhaber and L. Rabadjija</i>	E90
1,25-Dihydroxyvitamin D_3 target cells in immature pancreatic islets <i>S. A. Clark, W. E. Stumpf, M. Sar, and H. F. DeLuca</i>	E99
Effect of magnesium depletion on metabolism of 25-hydroxyvitamin D in rats <i>T. O. Carpenter, D. L. Carnes, Jr., and C. S. Anast</i>	E106

MODELING METHODOLOGY FORUM

Spare receptors, partial agonists, and ternary complex model of drug action <i>L. D. Homer and T. B. Nielsen</i>	E114
---	------

ANNOUNCEMENTS

E122

No. 2. AUGUST 1987

Altered glucose kinetics in diabetic rats during Gram-negative infection <i>C. H. Lang, C. Dobrescu, G. J. Bagby, and J. J. Spitzer</i>	E123
IP ₃ -dependent Ca ²⁺ release in permeabilized hepatocytes of endotoxemic and septic rats <i>J. A. Spitzer and I. V. Deaciuc</i>	E130
Energy expenditure after infusion of glucose-based total parenteral nutrition <i>K. M. Gil, J. Askanazi, D. H. Elwyn, F. E. Gump, and J. M. Kinney</i>	E135
Insulin resistance during suckling period in rats <i>T. Issad, C. Coupe, P. Ferre, and J. Girard</i>	E142
Brown adipose tissue metabolism in <i>ob/ob</i> mice: effects of a high-fat diet and adrenalectomy <i>H.-K. Kim and D. R. Romsos</i>	E149
Comparison of glucose and glucose plus lipid as caloric sources in parenterally fed rats <i>S. Lanza-Jacoby, A. Tabares, H. S. Sitren, and E. Kosar</i>	E158
Thyroid autoregulation: impact on thyroid structure and function in rats <i>C. Penel, J. B. Rognoni, and P. Bastiani</i>	E165
Sample site selection for tracer studies applying a unidirectional circulatory approach <i>D. K. Layman and R. R. Wolfe</i>	E173
Cold exposure potentiates the effect of insulin on in vivo glucose uptake <i>A. L. Vallerand, F. Pérusse, and L. J. Bukowiecki</i>	E179
Evaluation of a parathyroid hormone antagonist in an in vivo multiparameter bioassay <i>N. Horiuchi and M. Rosenblatt</i>	E187
Fasting-mediated altration studies in insulin action on lipolysis and lipogenesis in obese women <i>P. Arner and P. Engfeldt</i>	E193
Sarcolemmal Ca ²⁺ transport in streptozotocin-induced diabetic cardiomyopathy in rats <i>N. Makino, K. S. Dhalla, V. Elimban, and N. S. Dhalla</i>	E202
Hyperglucagonemia during insulin deficiency accelerates protein catabolism <i>K. S. Nair, D. Halliday, D. E. Matthews, and S. L. Welle</i>	E208
Heat production during contraction in skeletal muscle of hypothyroid mice <i>W. J. Leijendekker, C. van Hardeveld, and G. Elzinga</i>	E214

RAPID COMMUNICATIONS

A dual mechanism for regulation of kidney phosphate transport by parathyroid hormone <i>J. A. Cole, S. L. Eber, R. E. Poelling, P. K. Thorne, and L. R. Forte</i>	E221
A microdialysis method allowing characterization of intercellular water space in humans <i>P. Lönnroth, P.-A. Jansson, and U. Smith</i>	E228

No. 3. SEPTEMBER 1987

Ionophore A23187 partially reverses LH secretory defect of pituitary cells from old rats <i>R. S. Chuknyiska, M. R. Blackman, and G. S. Roth</i>	E233
Nervous control of glycogenolysis and blood flow in arterially and portally perfused liver <i>A. Gardemann, H. Strulik, and K. Jungermann</i>	E238
A primed-infusion technique for rapid estimation of the metabolic clearance rate of 1,25(OH) ₂ D ₃ <i>R. Eastell, B. L. Riggs, and R. Kumar</i>	E246
Long-latency growth-promoting activity of EGF when administered to mice at the neonatal stage <i>O. Imada, N. Hayashi, K. Masamoto, S. Kasuga, T. Fuwa, and S. Nakagawa</i>	E251
Optimal response of key enzymes and uncoupling protein to cold in BAT depends on local T ₃ generation <i>A. C. Bianco and J. E. Silva</i>	E255
Diet-induced thermogenesis in cafeteria-fed rats: a myth? <i>G. M. Maxwell, S. Nobbs, and D. J. Bates</i>	E264

Pathophysiology of type A hypoxic lactic acidosis in dogs <i>A. I. Arieff and H. Graf</i>	E271
Age-associated alterations in hepatic β -adrenergic receptor/adenylate cyclase complex <i>S. M. Graham, P. A. Herring, and I. J. Arinze</i>	E277
Plasma catecholamine and serum cortisol responses to experimental cardiac arrest in dogs <i>P. J. Foley, W. A. Tacker, J. Wortsman, S. Frank, and P. E. Cryer</i>	E283
Evidence for cAMP as a mediator of gonadotropin secretion from female pituitaries <i>G. A. Bourne and D. M. Baldwin</i>	E290
Evidence for cAMP as a mediator of gonadotropin secretion from male pituitaries <i>G. A. Bourne and D. M. Baldwin</i>	E296
Dissociation of in vitro sensitivities of glucose transport and antilipolysis to insulin in NIDDM <i>H. Yki-Järvinen, K. Kubo, J. Zawadzki, S. Lillioja, A. Young, W. Abbott, and J. E. Foley</i>	E300
Muscle glycogen repletion during active postexercise recovery <i>E. M. Peters-Futre, T. D. Noakes, R. I. Raine, and S. E. Terblanche</i>	E305
Distribution of free and sulfate-conjugated catecholamines in human platelets <i>R. K. McCulloch, R. Vandongen, A. M. Tunney, L. J. Beilin, and P. B. Rogers</i>	E312
Differences between in vitro and in vivo degradation of LHRH by rat brain and other organs <i>F. A. Carone, M. A. Stetler-Stevenson, V. May, A. LaBarbera, and G. Flouret</i>	E317
Physiological increments in epinephrine stimulate metabolic rate in humans <i>M. A. Staten, D. E. Matthews, P. E. Cryer, and D. M. Bier</i>	E322

No. 4. OCTOBER 1987

Reversal of the exercise-induced increase in muscle permeability to glucose <i>D. A. Young, H. Wallberg-Henriksson, M. D. Sleeper, and J. O. Holloszy</i>	E331
Effects of food restriction on lactate production from glucose by rat adipocytes <i>S. V. Thacker, M. Nickel, and M. DiGirolamo</i>	E336
Control of compensatory lung growth by adrenal hormones <i>D. E. Rannels, H. W. Karl, and R. A. Bennett</i>	E343
Dynamic peripheral nerve metabolic and vascular responses to exsanguination <i>M. Takeuchi and P. A. Low</i>	E349
Neuroanatomic localization of the inhibitory effect of TRH on growth hormone secretion <i>K. Ishikawa, H. Katakami, and L. A. Frohman</i>	E354
Patterns of glycogen turnover in liver characterized by computer modeling <i>J. H. Youn and R. N. Bergman</i>	E360
Clenbuterol-induced muscle growth: investigation of possible mediation by insulin <i>M. A. McElligott, J. E. Mulder, L.-Y. Chaung, and A. Barreto, Jr.</i>	E370
Hyperglycemia stimulates carbohydrate oxidation in humans <i>H. Yki-Järvinen, C. Bogardus, and B. V. Howard</i>	E376
Acute adaptation in adrenergic control of lipolysis during physical exercise in humans <i>H. Wahrenberg, P. Engfeldt, J. Bolinder, and P. Arner</i>	E383
Absence of detectable phosphocreatine in rat luteal cells <i>J. C. Cross, L. K. Soodak, B. Musicki, and H. R. Behrman</i>	E391
Altered contractile proteins in skeletal muscle of diabetic rats <i>P. K. Ganguly, Y. Taira, V. Elimban, M. Roy, and N. S. Dhalla</i>	E395
Maternal-fetal communication of circadian phase in a precocious rodent, the spiny mouse <i>D. R. Weaver and S. M. Reppert</i>	E401
Myometrial desensitization after ritodrine infusion <i>S. N. Caritis, J. P. Chiao, J. J. Moore, and S. M. Ward</i>	E410
Effect of superfused insulin on cerebral cortical glucose utilization in awake goats <i>D. A. Pelligrino, D. J. Miletich, and R. F. Albrecht</i>	E418

Effects of leucine, isoleucine, or threonine infusion on leucine metabolism in humans <i>W. F. Schwenk and M. W. Haymond</i>	E428
Effect of somatostatin on glucose homeostasis in conscious long-fasted dogs <i>R. W. Stevenson, K. E. Steiner, G. K. Hendrick, and A. D. Cherrington</i>	E435
Effect of somatostatin on nonesterified fatty acid levels modifies glucose homeostasis during fasting <i>G. K. Hendrick, R. T. Frizzell, and A. D. Cherrington</i>	E443
Metabolites of 2-deoxyglucose in rat brain at 12-24 h: bounds on kinetic constants <i>L. Bass, W. Bodsch, P. J. Robinson, and M. O. Young</i>	E453
Increased glucose dependence in resting, iron-deficient rats <i>G. A. Brooks, S. A. Henderson, and P. R. Dallman</i>	E461
Type I receptors in parotid, colon, and pituitary are aldosterone selective in vivo <i>K. Sheppard and J. W. Funder</i>	E467

LETTERS TO THE EDITOR

Measuring lactate production <i>W. C. Stanley and G. A. Brooks</i>	E472
---	------

ANNOUNCEMENTS

No. 5. NOVEMBER 1987

Restricted passage of insulin across capillary endothelium in perfused rat adipose tissue <i>S. S. Chernick, R. J. Gardiner, and R. O. Scow</i>	E475
Thermic effect of food: possible implication of parasympathetic nervous system <i>C. A. Nacht, L. Christin, E. Temler, R. Chioléro, E. Jéquier, and K. J. Acheson</i>	E481
Improved insulin action in muscle, liver, and adipose tissue in physically trained human subjects <i>K. J. Rodnick, W. L. Haskell, A. L. M. Swislocki, J. E. Foley, and G. M. Reaven</i>	E489
Study of ketone body kinetics in children by a combined perfusion of ^{13}C and $^2\text{H}_3$ tracers <i>P.-F. Bougnères and P. Ferre</i>	E496
Blood Ca^{2+} modulates responsiveness of renal $25(\text{OH})\text{D}_3\text{-}1\alpha$ -hydroxylase to PTH in rats <i>T. Matsumoto, K. Ikeda, K. Morita, S. Fukumoto, H. Takahashi, and E. Ogata</i>	E503
Periodic interactions of GH-releasing factor and somatostatin can augment GH release in vitro <i>J. Weiss, M. J. Cronin, and M. O. Thorner</i>	E508
Sympathetic activity in brown adipose tissue in lactating mice <i>P. Trayhurn and M. C. Wusteman</i>	E515
Hormonal control of postprandial thermogenesis in dogs <i>P. Diamond and J. LeBlanc</i>	E521
Regulation of mitochondrial adenine nucleotide content in newborn rabbit liver <i>P. C. Tullson and J. R. Aprille</i>	E530
Rat hepatic mRNA-S14 and lipogenic enzymes during weaning: role of S14 in lipogenesis <i>A. Perez-Castillo, H. L. Schwartz, and J. H. Oppenheimer</i>	E536
Regulation of urea production by glucose infusion in vivo <i>F. Jahoor and R. R. Wolfe</i>	E543
Models to interpret kinetic data in stable isotope tracer studies <i>C. Cobelli, G. Toffolo, D. M. Bier, and R. Nosadini</i>	E551
Endogenous opioids may mediate secondary damage after experimental brain injury <i>T. K. McIntosh, R. L. Hayes, D. S. DeWitt, V. Agura, and A. I. Faden</i>	E565
Regional amino acid transport into brain during diabetes: effect of plasma amino acids <i>A. M. Mans, M. R. DeJoseph, D. W. Davis, and R. A. Hawkins</i>	E575

MODELING METHODOLOGY FORUM

Reconstructing the rate of appearance of subcutaneous insulin by deconvolution <i>C. Cobelli, A. Mari, S. Del Prato, S. De Kreutzenberg, R. Nosadini, and I. Jensen</i>	E584
--	------
